Dear Sir:

I, April C. Logan, declare that:

1. In response to the PTO's request to provide a sequence listing for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures under 37 C.F.R. §§1.821-1.825 mailed September 30, 1991 (Paper No. 5), enclosed is a Sequence Listing on paper copy, made in accordance with 37 C.F.R. §§1.821-1.825. Also enclosed is a copy of the Sequence Listing in computer readable form, submitted as required by 37 C.F.R. §1.821(e), on which the Sequence Listing is labeled SCR0395S.APP.

2. Submitted herewith is an Amendment and Response to the Office Action mailed September 30, 1991 (Paper No. 5) and the Supplemental Office Action mailed October 11, 1991 (Paper No. 6), in which amendments have been made in order to comply with 37 C.F.R. §1.821(d). I hereby state that the Amendment made in accordance with 37 C.F.R. §1.821(d) does not include new matter.

3. In the event that these corrections do not completely satisfy the requirements set forth in the Office Action mailed September 30, 1991 (Paper No. 5), it is requested that this

correspondence act as a conditional request for a petition to revive an unintentionally abandoned application under 37 C.F.R. §1.137. In accordance with 37 C.F.R. §1.137(b), in the event that this application is held to be abandoned for failure to satisfy the requirements of the Action mailed September 30, 1991, such an abandonment of the application was unintentional. Indeed, the submission of this correspondence and its enclosures is evidence of the intent to continue prosecution of the application. The present correspondence is being submitted as part of the response to the outstanding Office Actions and should be considered as such for purposes of 37 C.F.R. §1.137(b).

4. In the event that this application becomes unintentionally abandoned, the petition fee in the amount of \$1,050.00 should be charged to our Deposit Account No. 19-0962. This paper is thus enclosed in duplicate.

5. All statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful, false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code, and that such willful, false statements may jeopardize the validity of the above-identified application or any patent issuing thereon.

Respectfully submitted,
